

? Portfolio Project Report

Owner: Jeel Patel **Date:** July 13, 2026

Live URL: <https://jeel-portfolio-345.vercel.app>

GitHub: <https://github.com/Jeel-Patel345/jeel-portfolio-345>

1. Project Overview

A modern, fully responsive **Cybersecurity Portfolio** built with React + TypeScript + Vite. The portfolio showcases Jeel Patel's skills, projects, certifications, and education in the cybersecurity domain. It is designed with a premium off-white and orange color palette, smooth animations, and a recruiter-friendly layout. The site is live on Vercel and automatically updates on every GitHub push.

2. Tech Stack

Technology	Purpose
React 18	UI framework
TypeScript	Type-safe JavaScript
Vite	Build tool and dev server
Vanilla CSS	Styling (no frameworks)
Vercel	Hosting and deployment

3. Project Structure

Folder / File	Description
src/components/hero.tsx	Hero / landing section with typing animation
src/components/Navbar.tsx	Navigation bar with theme toggle button
src/components/About.tsx	About me section
src/components/skills.tsx	Skills grid with icons
src/components/projects.tsx	Project cards
src/components/Certifications.tsx	Certifications display
src/components/Education.tsx	Education timeline
src/components/Contact.tsx	Contact form
src/components/Footer.tsx	Footer with credits
src/context/ThemeContext.tsx	Light / Dark mode state management

src/hooks/useCounter.ts	Animated number counter hook
src/hooks/useScrollAnimation.ts	Scroll reveal animation hook
src/pages/ProjectsPage.tsx	Dedicated full-page projects view
src/styles/global.css	CSS variables and design tokens
vercel.json	Vercel routing configuration
tsconfig.app.json	TypeScript configuration
vite.config.ts	Vite build configuration
PORTFOLIO_REPORT.md	This report (Markdown version)

4. Portfolio Sections

Section	Description
Hero	Name, typing animation title, CTA buttons, animated stats
About	Short bio with scroll-in animation
Skills	Visual skills grid with technology icons

Projects	Project cards with descriptions and links
Education	Academic education timeline
Certifications	Professional certifications display
Contact	Contact form for recruiters to reach out
Footer	Social links and copyright
Projects Page	Dedicated full-page view for all projects

5. Key Features

- **Typing Animation** — Hero title cycles through: *Cybersecurity Learner | Network Security | Hardware Troubleshooting* with blinking cursor
- **Light / Dark Mode** — Theme toggle button in navbar using CSS variables
- **Animated Statistics** — Counting animation for "5+ Projects" and "3+ Certifications"
- **Scroll Animations** — Elements fade in as the user scrolls down the page
- **Mouse Glow Effect** — Subtle glow that follows the mouse cursor
- **Fully Responsive** — Optimized for mobile, tablet, and desktop screens
- **Download Resume** — CTA button links directly to the resume PDF
- **View Projects** — Button navigates to the dedicated Projects page
- **Floating Badge** — Animated floating badge on the profile image
- **Cybersecurity Grid Background** — Subtle orange grid pattern in the hero section
- **Profile Glow** — Pulsing orange glow effect behind the profile image

6. Design System

Token	Value
Primary Color	Orange — #f97316
Background (Light)	Off-white — #fdf8f3
Background (Dark)	Deep dark — #0a0a0a
Font	System UI / Inter / Calibri
Border Radius	12px – 16px
Transition Speed	0.3s – 0.8s cubic-bezier easing

7. Deployment Information

Property	Value
Platform	Vercel (Hobby Plan)
Framework Preset	Vite

Build Command	npm run build
Output Directory	dist
Deploy Branch	main
Auto Deploy	Yes — on every git push
Live URL	https://jeel-portfolio-345.vercel.app
GitHub Repository	https://github.com/Jeel-Patel345/jeel-portfolio-345

8. How to Update the Portfolio

Whenever you want to update your live portfolio, follow these 3 steps:

1. Make changes to the code in VS Code
2. Test locally using **npm run dev**
3. Push to GitHub using the VS Code terminal:

```
git add .
```

```
git commit -m "Describe your change here"
```

```
git push
```

Vercel will automatically detect the push and rebuild your live site within **~60 seconds**.

9. NPM Dependencies

Package	Version	Purpose
---------	---------	---------

react	^18.x	Core UI library
react-dom	^18.x	DOM rendering
typescript	^5.x	Type checking
vite	^5.x	Build tool
@types/react	^18.x	React type definitions
@types/react-dom	^18.x	React DOM type definitions

10. Build Status

Check	Status
TypeScript Compilation	? PASS
Vite Build	? PASS
Vercel Deployment	? LIVE
Responsive Design	? PASS
Light / Dark Mode	? PASS

Typing Animation

 **PASS**
